

Training Success in Scotland

Candidates have recently completed PIABC's Scottish Vocational Qualifications that form part of the Scottish Modern Apprenticeships in Wood and Timber Industries at Level 5 & 6. The training and assessment was undertaken by one of PIABC Scottish centres ATT, whose Centre Principal is Andrew Gibson MIMMM AIWSc.

The three candidates are all employed by Egger at the company's Ayrshire production facility. This plant has an annual wood products manufacturing capacity of over 400,000 cubic metres and is currently undergoing significant investment in the production process.

Photographed above are (left to right); Jamie, who has completed the SVQ in Wood Products Manufacturing at SCQF Level 6; Andrew Gibson MIMMM, who presented the Certificates; Sam (also pictured below with his Certificate) and Ryan, who have both completed SVQ in Wood Products Manufacturing at SCQF Level 5 and have now progressed to the next level.
