

PIABC Level 2 NVQ Diploma in Wood Machining (Furniture) (QCF) Success Story

Ryan Poingdestre has successfully completed his PIABC Level 2 NVQ Diploma in Wood Machining (Furniture) (QCF) qualification.

Ryan originally lived in Portsmouth, but made the life changing decision to move to London on his own to gain an apprenticeship with Kesslers International.

Ryan progressed very quickly within this organisation and was soon running large CNC/NC machinery and is now a valued member of the Kesslers production team.

Ryan's commitment to his apprenticeship programme was second to none and his dedication to travel from London to Nottingham to receive his training at Webs Furniture Training every other week was acknowledgement of his desire to succeed and progress within the Furniture Industry.

Ryan and Kesslers are looking to the future and are in discussions regarding the options available to Ryan at Level 3.
