

ST0094/1.1 COMPOSITES TECHNICIAN PORTFOLIO OF EVIDENCE DECLARATION FORM

The apprentice's portfolio of evidence needs to be mapped to the relevant knowledge, skills and behaviours (KSBs). The portfolio of evidence should not include reflective accounts, or any methods of self-assessment made by the apprentice. Any employer contributions should focus on direct observations of performance (for example, witness statements) rather than opinions. The evidence provided should be valid and attributed to the apprentice and by both the employer and apprentice completing this *Portfolio of Evidence Declaration Form* this is confirmed.

The portfolio of evidence is not directly assessed by PIABC Limited directly as it underpins the interview element of the end point assessment (EPA). The assessor will review the portfolio of evidence to prepare questions for the interview. No feedback will be given on the portfolio of evidence after the review.

APPRENTICE DETAILS

First Name:	Last Name:
ULN:	Date of Birth:

To be completed by the Apprentice:
